

Starting from Canal Cavaíra, this stage gives voice to the mining history of the region: it passes by the small mining village of Louasa, home to a vast archaeological and industrial heritage relating to the mining of tin. Upon reaching the PRG-DL - Louasa Geomagnetico, both tracks run parallel, visiting the megalithic monuments crossing the area. The large cache enclosures in the surrounding gallery to the surrounding setting.

Passa a arribar els primers dies de l'estiu i la platja de Lloret es transforma en un gran espai per a la relaxació i el lleure. Les zones d'esbarjo s'expanden i els jardins del poble es converteixen en espais d'oci i descans. Els jardins del Passeig Marítim, els jardins dels Arcs i els jardins dels Bous s'omplen de persones que busquen refugi del sol i la calor. Els jardins del Passeig Marítim i els jardins dels Arcs s'omplen de persones que busquen refugi del sol i la calor. Els jardins del Passeig Marítim i els jardins dels Arcs s'omplen de persones que busquen refugi del sol i la calor. Els jardins del Passeig Marítim i els jardins dels Arcs s'omplen de persones que busquen refugi del sol i la calor.

Path registered and certified by:

Starting the Rota do Boticó near two typical tavoms, there is no better way to begin than by experiencing the traditional liquids before heading to the heart of Santa Mônica Chá. There the opportunity and visit the church and the Casa Museu Mônica Chá. After a taste of the opportunity with effects of Almeneiros. The Boné Bone White Shopping marks the path heading east, from hill to hill, surrounded by the characteristic landscape of the Serra de Granaína. A Helderine da Ribeira Ladeira, an area of rich biodiversity, the trail overlaps with PGS DFL - Trilho do Montado, before diverging toward Mossúriegos. The trail overlaps with PGS DFL - Trilho do Sertão, passing through hills, rock oaks, cliffs, leaveder, and even the curious gaze of apes.
